

Release Notes for iClicker Integrate for Desire2Learn

v2.6 (Release for iClicker 7.14 integration)

July 2017

NEW:

- Documentation updates
- Updated TLS protocol (to TLS v1.2) in order for institutions that have TLS v1.0 disabled to properly set up the integration.

v2.5 (Release for i>clicker 7.7 integration)

July 2016

NEW:

- Upload warning message appears if instructor tries to upload grades with a roster containing any role besides student (i.e. instructor)

v2.4 (Release for i>clicker 7.4.3 integration)

September 2015

NEW:

- Ability to add App ID and Key in Admin Wizard if necessary
- Roster handling for continuous delivery*

Note: If you are using the D2L continuous delivery versions, please read the admin instructions prior to setup. There is no change to instructor setup.

v2.3 (Release for i>clicker 7.4.1 integration)

July 2015

NEW:

- i>clicker GO is removed from the student registration page
 - Note: at the time of release, some versions of Safari showed issues with the student registration page. If this issue occurs, students should use a different browser, such as Chrome or Firefox.
- Ability to configurable multiple LMS with new Admin Wizard

July 2016

- Ability to upload zero scores as zero
- Download roster for multi-section courses
- Improved error messaging

Note: this integration is certified for D2L v10.3. If you are using the D2L continuous delivery versions, please check with your i>clicker support representative for integration details.

v2.2 (Release for i>clicker 7.0 integration)

July 15, 2014

NEW:

- Students can register both i>clicker remotes and i>clicker GO from the i>clicker registration page within D2L.
- Admin wizard is new and creates one single file for use in instructor i>clicker Resources folder.
- Instructors enter credentials directly from i>clicker settings rather than run separate integrate wizard.

v2.1 (Integrate wizard v3.3.2)

October 11, 2013

Student Roster

- FIX: Paging fixes for large rosters.

v2.0.1 (Integrate wizard v3.2.9)

August 29, 2013

Student Roster

- FIX: Rosters containing more than 50 students will now synch students #51-99 with i>clicker registration information.
- FIX: Students' last name is shown in the roster as last name when the student middle name is present in D2L.

v2.0 (Integrate wizard v3.2.0)

July 24, 2013

Valence integration

- NEW: The integration uses the new D2L Valence protocol for increased reliability.
- FIX: Optimized code for better performance.

July 2016

Course Offering

- NEW: Instructors are able to see the course offering code, along with course name, in the Integrate drop-down course menu.
- NEW: Supports paging for large number of courses.

Remote Registration

- FIX: Instructors can setup the i>clicker remote registration link as an External Tool.
- FIX: Students are able to register i>clicker remotes from within D2L.

Authentication

- NEW: Authentication is handled by D2L through the user's default browser. No separate authentication is required.

Some minor wording changes in confirmation messages.
