

**THANK YOU** for choosing i>clicker, the easiest-to-use classroom response system available. i>clicker requires [no installation](#) and [minimal setup](#).

## Set Up i>clicker

- 1 Visit [iclicker.com](http://iclicker.com) to download the New Zealand software to your hard drive. You may also run the software from a USB flash drive, but your hard drive will provide the best experience possible.
- 2 From the *i>clicker Home* window, click **+ Create** button and enter your course name.

- 3 From the *i>clicker Home* window, click the **Settings** button, then the REEF Polling tab.

**Edit REEF Polling Settings:**  
Use these settings to register your course to allow REEF Polling (mobile clicker for laptops, smart phones, tablets and other mobile devices).

- 4 **Login** or **Create** a REEF Polling account.
- 5 Enter Course Details to enable REEF Polling for your course.

**Course Details**  
This is how your course will appear in REEF Polling.

**Institution:** Required [Can't find your Institution?](#)

**Course Name:** Required

**Screen Capture:** Required

☐ Allow students to view screen captures of the questions when polling starts

☐ Allow students to view screen captures of the questions when polling ends

☒ Do not allow students to view screen captures of the questions

Optional

**Course ID:**

**Term:**

**Start Date:** 7/1/15 **End Date:** 7/8/15

**Meeting Times:**

☐ Monday

☐ Tuesday

☒ Wednesday 4:00 PM

☐ Thursday

☐ Friday

☐ Saturday

☐ Sunday

**Cancel** **Save**

## Start a Polling Session

- 1 REEF Polling works over the Internet, so make sure you're connected. From the *i>clicker Home* window, select a course and click **Start New Session** button.
- 2 The *Session Toolbar* appears in the top-left corner of your screen. This toolbar can be repositioned anywhere on your desktop.
- 3 When you are ready to start polling, ask your students to launch *i>clicker GO*. Present the question to your students. If necessary, switch the question type using the drop-down menu control on the **Start** button.

- Use type **Multiple Choice** for [Multiple Choice](#), [True/False](#), [Yes/No](#)
  - Use type **Numeric** for [Numeric](#) (open-ended response)
  - Use type **Short Answer** for [Alphanumeric](#) (open-ended response), [Multiple Response](#), [Order/Rank/Sequence](#)
- 4 Click the **Start** button to begin polling. Once polling is active, this button switches to become a **Stop** button.
- 
- 5 Click the **Stop** button to close polling.
  - 6 To view and share results with students, click the graph button on the toolbar to show the Results Chart.

Students can use REEF Polling via mobile app or web app. Students will locate your class by entering your institution name and selecting your course name.

## Support

- The complete user guide is available in the *i>clicker* software folder.
- For additional support materials, visit [support.iclicker.com](http://support.iclicker.com).
- For specific technical questions, email us at [support@iclicker.com](mailto:support@iclicker.com) or call us at 0800 445 866.
- To schedule training, visit [iclicker.webex.com](http://iclicker.webex.com).
- For information from your peers including best practices, case studies, discussion forums, and clicker questions, visit our user community: [TalkClickers.com](http://TalkClickers.com).
- For sales inquiries or questions, contact your local *i>clicker* representative.
